**Want to share about Rivet School on your employee intranet or benefits page? Feel free to copy/paste the information below!**

--

We are excited to announce our partnership with [Rivet School](#), a nonprofit college program that helps working adults earn their college degrees, prepare for licensure exams, and enter the teaching credential program of their choice. Rivet School's [Educator Pathway](#) supports school staff members, like instructional aides and after school staff, who have not yet earned their BA and are interested in becoming certified teachers. Enrolled staff work through a job-relevant BA program online, get support from a personal coach, and work alongside a community of peer educators working toward the same goal – all while continuing to work full-time

We believe that investing in the education and development of our staff members is key to building a strong, thriving organization. That's why we're proud to partner with Rivet School and offer our employees the chance to pursue their academic goals while continuing to excel in their current roles.

Rivet School's personalized approach to education includes 1:1 coaching, project-based learning, and access to a variety of career resources to help students achieve their academic and professional goals. With flexible scheduling and individualized support, Rivet School makes it easy for working professionals to balance their education with their other responsibilities.

Whether you're just starting your academic journey or looking to take the next step in your teaching career, Rivet School offers the resources and support you need to succeed. We encourage all of our staff members to learn more about this exciting opportunity by filling out an interest form [here](#).
